2017 - 2020 BSc Computer Science

Kamaraj College, Tuticorin.

CERTIFICATION

Learn to Code in Python 3: Programming beginner to advanced.
Udemy

PROJECTS

- ♦ SquareNow Web
- ♦ SquareNow App
- ♦ Pookadai
- ♦ FeatureNow

- ♦ **SquareNow** - Micro Finance Institutions Web Application and Mobile App (React and AngularJs).
- ♦ **Pookadai** - Grocery Mobile Application (React).
- ♦ **FeatureNow** - Finance LMS Application (React).
- ♦ SquareNow is an LMS (Loan Management System) application developed in AngularJS. As an LMS application, it focuses specifically on loan management functionalities.
- ♦ **Loan Application:** SquareNow allows users to submit loan applications through the application. Users can provide necessary information such as loan amount, purpose, repayment terms, and supporting documentation.
- ♦ **Loan Processing:** Once a loan application is submitted, the system facilitates the processing and evaluation of the application. This may involve credit checks, verification of eligibility criteria, and assessment of financial information.
- ♦ **Loan Approval:** The application provides a workflow for loan approval, allowing authorized personnel to review and approve loan applications based on predefined criteria. Notifications and alerts can be sent to applicants regarding the status of their loan application.
- ♦ **Loan Disbursement:** After a loan is approved, the system manages the disbursement of funds to the borrower. It generates loan agreements, calculates interest rates, and records disbursement details.
- ♦ **Loan Repayment:** SquareNow tracks loan repayment schedules and manages borrower payments. It generates repayment plans, sends notifications and reminders, and tracks the repayment history of borrowers.
- ♦ **Loan Tracking and Reporting:** The application provides comprehensive loan tracking and reporting features, allowing administrators to monitor loan statuses, generate reports on loan performance, and analyze loan portfolio data.
- ♦ **User Management:** SquareNow includes user management functionality, allowing administrators to manage user accounts, roles, and permissions. This ensures secure access and control over loan-related activities within the system.
